

Science-Fest 2017 With Career Planning /Guidance

The Science Fest 2017 was conducted on 25th and 26th January 2017. Science Fest – “A journey from Science to Innovative Technology” is an annual 2-days event organized every year on 25th and 26th January at St. John Technical and Educational Campus.

The theme for the Science Fest 2017 was “Science In The Service Of Humanity”.

The students of St. John Institute of Management and Research had put up stalls for Career guidance, NSS center, Games stalls, Management Infoline and Warliproducts.

The MMS department had their own Career Guidance stalls to counsel and guide the students / parents on numerous possibilities available for higher education / career and thereby ensure a good and bright future.

The students of all the institutes showcased some of their innovative projects and ideas to make the science fest an enriching experience for all. All the Institutes in the St John Technical Campus participated in the Fest.

The winners were felicitated by the Chief Guest with trophies, cash prizes and certificates whereas all the participants were given certificates.
